To install this package, start R and enter:

```
## try http:// if https:// URLs are not supported
source("https://bioconductor.org/biocLite.R")
biocLite("geneLenDataBase")
```

In most cases, you don't need to download the package archive at all.

geneLenDataBase

This package is for version 2.11 of Bioconductor; for the stable, up-to-date release version, see [geneLenDataBase](#).

Lengths of mRNA transcripts for a number of genomes

Bioconductor version: 2.11

Length of mRNA transcripts for a number of genomes and gene ID formats, largely based on UCSC table browser

Author: Matthew Young

Maintainer: Matthew Young <myoung at wehi.edu.au>, Nadia Davidson <nadia.davidson at mcri.edu.au>

Citation (from within R, enter `citation("geneLenDataBase")`):

Installation

To install this package, start R and enter:

```
## try http:// if https:// URLs are not supported
source("https://bioconductor.org/biocLite.R")
biocLite("geneLenDataBase")
```
